Senator Hitchcock is at present under the best of all aspects of his Sun by progression to the idealistic and democratic Neptune—an aspect pe-culiarly fitting for honors and succeass in such a democratic cause as that which he is championing on the floor

While of value as indexes it would be madness to rely wholly upon the planetary influences in the lives of persons when seeking the solution of a problem affecting the nation or the whole of civilization. We have, therefore, applied ourselves diligently to a study of those mighty configurations that exert a world-wide influence. Before and leading up to the war, constantly through its continuance and with even greater persistency since with even greater persistency since the signing of the armistice, we have invariably found the planet Neptune to figure conspiciously in all the con-

# NUXATED IRO

### Red Blood.

THINK of the strong, healthy men and women you know—people who are prominent and who are doing things worth while and you will find that they usually possess remarkable force, vim and energy—the kind that simply brim over when the blood is filled with iron. Iron is red-blood food—it helps put strength and energy into the veins of men and roses into the cheeks of women. Nuxated Iron by enriching the blood and creating new blood cells strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed energy and endurance into the whole system.

If people would only keep their blood filled with strengthgiving iron by taking Nuxated Iron when they feel weak, rundown and nervous, they might readily build up their red-blood corpuscles and quickly become stronger and healthier in every way. Unlike the older inorganic products it is easily assimilated, does not injure the teeth, make them black nor upset the stomach. Nuxated Iron often increases the strength and endurance of weak, delicate people in two weeks' time. It is dispensed by
